### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3634

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-21 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Laughman et al. (5,783,312). As shown in Figures 1-3, Laughman et al. (5,783,312) disclose a weather strip (14) in combination with a motor vehicle (column 1, line 6) comprising a steel metal carrier (30) having a U-shaped cross-section (sealing flanges 18 and 19) having a first region having a first flexibility (the middle portion as shown in Figure 3) and a second region having a second flexibility (the top or bottom portion as shown in Figure 3), and an elastomeric material (12) disposed about the carrier (30) and including a tubular/hollow sealing feature (16) extending from the weather strip (14). Laughman et al. (5,783,312) further disclose the first region having a plurality of apertures (52 and portions of 42 which extend along the same plane) disposed generally centrally along the carrier (30). Laughman et al. (5,783,312) still further disclose the second region having a plurality of slits (54 and/or 56).

The applicant's arguments have been considered but are not deemed persuasive. It appears that the applicant's arguments are more limiting than that of the claims. The applicant has failed to specifically define the phraseology "longitudinal" insomuch as the direction in which the different regions extends. Laughman et al. ('312)

Art Unit: 3634

clearly discloses a metal carrier having two distinct regions adjacent to one another and extending longitudinal per se.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to Jerry Redman at telephone number 571-272-6835.
